As Summer starts to wind down, and we start to prepare our kids for school, Heritage Millwork would like to thank our valued customers for their continuing business and endorsement of our products. This past month has been quite the windfall for us with business in our wood shop soaring through the roof.

Feel free to check us out online <http://www.heritagemillworkandwindows.com> . Much like the wood industry, our website is always evolving. We are open to any input and/or suggestions you may have.

Our motto here at Heritage Millwork is “Millwork Done to

Product	Lead Time
Vinyl Windows	5 weeks
Wood Windows	10 weeks
Doors (Metal/Fiberglass—wood)	6 weeks—10 weeks
Specialty	10 weeks
Cabinets	14 weeks

YOUR Specifications,” we would like to remind our customers that, apart from a lot of the standard construction we do, if you have some custom work that needs to be done, we can do it.

Product News

With the abundance of new products on the market, sometimes it can be hard to keep up. As fast as the new products are becoming available, the more we learn about different applications and designs, and where some products are more appropriate. Making these decisions can be difficult, and the most cost-effective decision, isn't always the best decision. We invite our customers to call our shop with any questions or concerns you may have about some of these products. Our customer service department has all of the latest information and specifications to ensure that you will get the most out of your windows and doors. Our office is open from 7am until 4:30 pm throughout the summer. Call us for estimates, shipping information, or even just to ask a question about any of our products. We are always happy to help.
