Cabinet Designer:

Debora: debritchie@shaw.ca

As I'm sure most of you have heard by now, we had a fire in the month of May, that damaged our cabinet shop quite significantly. Though the fire did set us back a couple of weeks, with the help of our great team here at Heritage, everything is running back to normal. We would like to extend our thanks to our valued customers, who were patient during our difficult time.

We would also like to celebrate the launch of our new website, which can be found at <http://www.heritagemillworkandwindows.com> We invite you to visit our site, and let us know what you think!

Product	Lead Time
Vinyl Windows	4 weeks
Wood Windows	6 weeks
Doors	6-7 weeks
Specialty	8 weeks

Product News

Heritage Millwork would like to announce a brand of LoE that is just coming into the market. This glass, called "LoE³-366," has a third layer of clear silver coating, that results in less solar gain, reflects heat, and lets the light stream in. All with a minimum of exterior reflectance, with no heavy bronze or smoke-coloured tints to darken your home. LoE³-366 actually outperforms the tinted glass used in warm climates.

Heritage Millwork and Windows Ltd. truly appreciates the kindness and patience shown by our valued customers, during the two weeks that we had to deal with our fire. Now that things are back to normal, we are excited to receive your business. Try us for a quote, anytime!
