Heritage Millwork would like to give its customers the opportunity to know what is going on in our business so they can have an understanding of how we work, and what special offers or promotions we have going for the month. In these newsletters we will discuss lead times, innovative and new products, and accomplishments throughout our company. We would like to thank our customers for working so hard to keep us so busy throughout the year. We are entering our peak time for the season, as most businesses are, so things can get interesting at a production level.

Here are our current lead times:

Product	Lead Time
Vinyl Windows	5 weeks
Wood Windows	6 weeks
Doors	6 weeks
Specialty	8 weeks

Congratulations to Pat Van Ryswyk, our Wood Shop Foreman, as he celebrated his 15th year at Heritage Millwork and Windows Ltd. on April 13th.

Product News

Heritage Millwork and Windows Ltd. is proud to announce the availability of a new line of **fiberglass doors**, at 1/3 the cost of its predecessors. **Fiberglass doors** have insulating properties 6 times greater than wood doors. They are environmentally friendly, and resistant to dents, dings, splintering and corrosion. Virtually no moisture can penetrate these doors. The superior oak grain provides the warmth and feel of real wood. Whether stained or painted, **fiberglass doors** can retain a natural wood grain better than any finish applied to a real wood door.

Try us for an estimate anytime, and don't forget about our extensive line of wood and vinyl windows that remain a higher quality than your average window retailer or manufacturer.
